CLOUDY AND THREATENING. Probably Showers; Light to Fresh Southensterly Winds.

Forecast till 8 p.m. Thursday: For the District of Columbia, Delaware, Maryland and Virginia, cloudy and threatening tonight and Thursday, probably showers; light to fresh southeasterly winds.

Weather conditions and general forecast Cloudy and rainy weather prevails this morning in the Mississippi valley north of Memphis, in the Ohio valley and the lake region, and from the Carolinas northward to the New Jersey coast. There has been an unusually prolonged period of rain in the middle Mississippi valley, it having rained almost continuously for the last four days. Frost is reported this morning from the

Dakotas, Nebraska and northeastern Kan-Continued cloudy and threatening weather with occasional rain is indicated for the lower lake region, the Ohio valley and the middle Atlantic states. Showers are also indicated for western New England Thurs-

day.

The temperature changes will not be important.
On the New England and middle Atlantic coast fresh to brisk east to southeast winds will prevail. On the south Atlantic coast the winds will be mostly fresh westerly. On the lower lakes light variable winds will become fresh to brisk north to northwest. Steamers which depart today for European ports will have fresh southeasterly winds, fog and rain to the Grand Banks. A disturbance is central over the English

The Mexican ambassador being interviewed regarding the statement that he had been forgotten when invitations were issued to several diplomatic representatives

to attend the ceremonies connected with the conferring of the red beretta on Cardinal Martinelli at Baltimore today, said that he had not received such an invitation, and that he understood this omission to be due to his not having any official or social acquaintance with the cardinal.

The ambassador further said that he never had made any other statement about the THE THERAPEUTIC SOCIETY

Technical papers occupied the attention of the American Therapeutical Society at its session this morning in National Rifles' my8 w,s,12t Administratrix, Hampton, Va. Armory hall, and were followed with close attention. Dr. Francis P. Morgan of this city, read an address on "Suggestions Concerning the Use of the Metric System in Prescription Writing," and Dr. Robert Reyburn one on "Inertness of Petroleum Compounds when Given Medicinally." Other papers were read by Dr. F. E. Stewart of New York on "The Relation of the WALFORD'S DOO AND 477 PA. AVE. Pharmacist to the Physician and the Relation of Pharmacy to Materia Medica and Drug Therapeutics," and by Dr. J. W. Wainwright, of New York, on "The Industry of Artificial Medical Remedies." The program for the session this afternoon calls for papers on "The Therapeutics of Chronic Heart Diseases and their Complications," by Dr. Thomas E. Satterthwaite of New York; on "Principles of Cardiac Therapeutics in Recent Valvular Disease," by Dr. Eli H. Long of Buffalo," and a "Report of Two Cases of Aneurism Treated by Wiring and Electrolysis," by Dr. J. N. Hall of Denver

Hall of Denver.

There will be a banquet tonight at the Cochran Hotel. President's Annual Address. At the afternoon session yesterday the main feature was the address of the president, Dr. Wood, which was read by the vice president, Dr. Wilcox. It was a review of medical progress during the past year. It had not been characterized by any startling discoveries in curing disease, but had been noticeable for a movement toward the more careful study of older remedies and a reinvestigation of theories based upon their use. Christian Science was exhaustively treated under the head of Ed-dyism, and Dr. Wood said that it was possible something might be learned from it about the natural history of untreated dis-

the matter with them and the numerous hypochondriacs.

The delegates were entertained last night by the District Therapeutic Society at a reception at the Cochran Hotel. The even-ing was passed informally and a pleasant time was enjoyed.

Represented in Washington, D. C., by R. J. Bright and W. Scott Towers, Room 25, Wyatt Building. The Directors (who are also the owners) certify in their prospectus, copies of which can be had at Room 25, Wyatt building, or will be mailed upon request, that: "Every statement herein presented is made with the full knowledge of the responsibility of the

Directors and Officers of this Company to the public, and we do not desire any one to invest a penny in this enterprise who has the slightest doubt of the truthfulness of the statements herein "Our investigations of the property fully justify us in saying that it is one of the largest and most valuable gold mines now known; that the facilities for mining and extracting the value are unexcelled; that the business conditions, taking everything into consideration, could hardly be

better, and that the annual profits, when the plant is in operation, will not be less than 25 per cent upon the price the stock is offered for, and that such profits will continue for many years from ore now in sight. "From the knowledge that we have, not only of this mine but of all other similar mines in the United States, we unhesitatingly recommend the stock as a safe and conservative investment for

"The stock of this Company is full paid and non-assessable. No stockholder assumes the slight-

est personal responsibility for the obligations of the Company. There is no bonded indebtedness to

pay interest on. No preferred stock stands between any stockholder and his fair share of the profits, "This stock, which is full paid and non-assessable, and which carries no personal liability for the stockholders, is offered at \$3.00 per share (par value, \$5.00). "Every dollar realized from the sale of this treasury stock will go into the plant. No saleries are paid to any officers connected with this Company, and none will be paid until the plant is in

actual operation and the earnings justify such salaries. "If for any reason the whole amount necessary for the erection of the plant is not at once forthcoming from the sale of treasury stock, the work will, nevertheless, be completed without delay. An agreement has been entered into between the Company and responsible parties to place the plant in operation in any event, thus providing against the risk of failure on account of an insufficient amount of stock being sold to place the mines on a paying basis."
